

Setup React router

npm install react-router

```
var {Router, hashHistory, IndexRoute, Route} = require('react-router');
```

```
ReactDOM.render(  
  <Router history={hashHistory}>  
    <Route path="/" component={Main}>  
      <IndexRoute component={Weather}/>  
      <Route path="/about" component={About}/>  
      <Route path="/examples" component={Examples}/>  
    </Route>  
  </Router>,  
  document.getElementById('root')  
)
```

Trong Nav.js

```
var {Link, IndexLink} = require('react-router');
```

```
<IndexLink to="/"  
  activeClassName="active"  
  activeStyle={{fontWeight: "bold"}}  
  >Get Weather</IndexLink>  
  
<Link to="/about"  
  activeClassName="active"  
  activeStyle={{fontWeight: "bold"}}  
  >About</Link>  
<Link to="/examples"  
  activeClassName="active"  
  activeStyle={{fontWeight: "bold"}}>  
  Examples</Link>
```

Trong Main.js: {this.props.children}
